Pipe – Certa-Fire Specifications

8' Three Edge Bearing Tester - Model D300T-9696

Pipe Size:

Pipe diameter:	12"-96"
Pipe length:	8'-0" maximum
Pipe specification:	ASTM C76, C655, C506, and C507
Pipe types:	Bell and Straight, Arch and Elliptical

Force:

Range of force	15,000# to 300,000#
	Tolerance exceeds ASTM C497

STANDARD FEATURES:

- Structural bottom beam for easy installation.
- Roll in track.
- Adjustable bottom bearing surface.
- Digital force readout.
- Easy calibration.
- Force per minute control with adjustable rate changes.
- Flow indicator for early detection of pipe deflection.
- All-weather operation
- Emergency stop switch.

Optional Features:

- Powered pipe positioning device.
